

ELSE

Think out loud.
See what else matters.

A voice-first conversational canvas

AssemblyAI Voice Agent Hackathon 2026

THE PROBLEM

The question nobody asked

Topics move quickly.
Assumptions stay unchallenged.
Important questions get left behind.

“What happens
if we miss
the date?”

A transcript records what was said. Missing questions remain invisible.

THE SOLUTION

A canvas that follows the conversation

The current topic stays in the center.
Eight directions help reveal what to explore next.

To clarify
Next steps
Settled

ELSE keeps a live transcript and saves a Summary
with decisions, open questions and the full conversation.

Current topic. Eight directions.

ELSE

Model booking

Have the models confirmed their availability?

Studio booking

Does the space work for your lighting and set?

Budget

What's the total budget, including the unexpected?

Dates & timing

Are the shoot date and delivery deadline agreed?

Photoshoot planning

An editorial shoot for the autumn collection.

Usage rights

Where will the images appear, and for how long?

Creative direction

Does everyone share the same visual reference?

Crew & equipment

Who's handling styling, lighting and production?

A backup plan

What happens if a model or location falls through?

NEW CONVERSATION

SUMMARY ↗

Photoshoot planning

TO CLARIFY 2

- What is the total budget?
- Is the studio available?

TRANSCRIPT

Person 2

Friday is confirmed.

Person 1

We need two models for Friday. The studio is booked; rates and availability are still open.

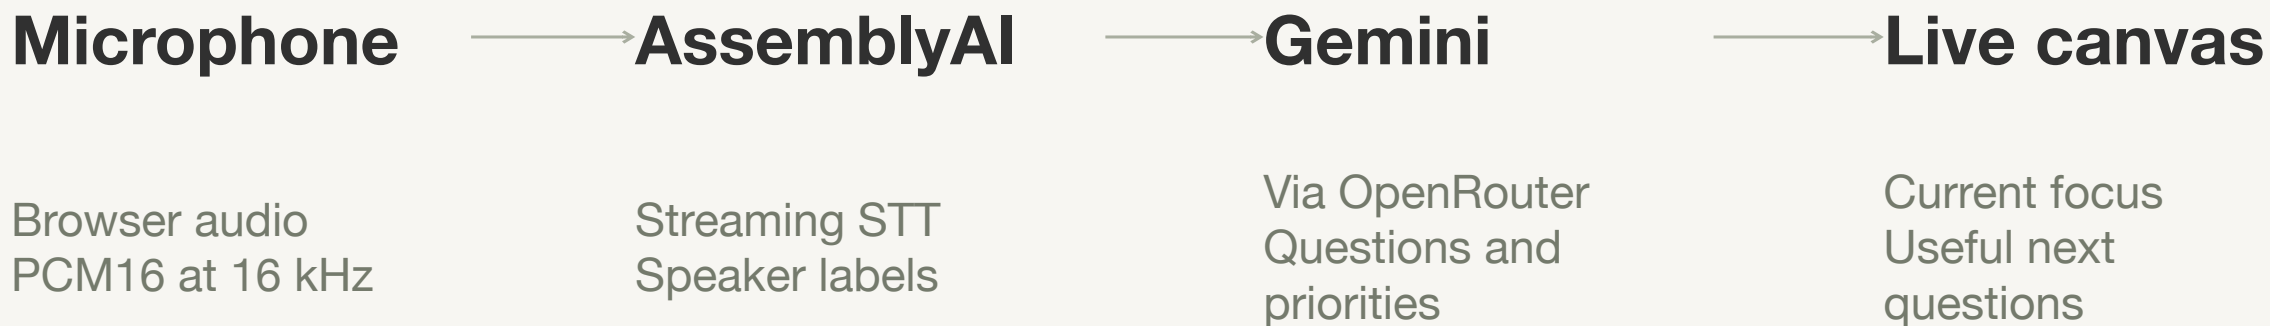

HISTORY

Microphone on

Speech becomes useful context

Fastify routes the stream. Validation checks model output. SQLite saves the conversation.

THE VOICE LAYER

AssemblyAI

Streaming Speech-to-Text v3
Universal-3.6 Pro Realtime

People keep talking.
ELSE keeps listening.

Live transcription

Partial turns appear
as people speak.

Speaker diarization

Person 1, Person 2 and more.
Unknown when uncertain.

Completed turns

Trigger context analysis.

WHERE IT HELPS

See what still needs to be said

ELSE extends the conversation
while people remain in control.
